

17 Dec. 1969

Jerry,

STATOTHR

Per our conversation this date have enclosed two (2) drawings, an overall of the [redacted] and a large building print.

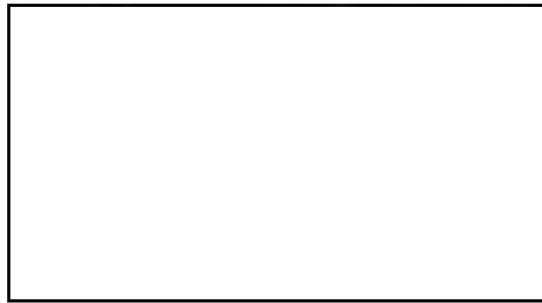

You'll find the area to be used designated as "A" on the small drawing.

The building drawing will show you the particular room. The ~~XXX~~ small door (A) is equipped with an electric latch for working hours and a hasp and Sergeant-Greenleaf lock for non-working hours. The large opening (B) is hung with double doors for easy access with the bird. The doors are solid and fastened on the inside to preclude entrance from without.

Should your meeting indicate additional safeguards, please advise.

STATINTL

Thanks.

STATINTL

12/29: Called [redacted]

He is setting up [redacted]

sterile P. O. Box.

STATOTHR

Advised Charlie that present set-up is OK as components are essentially unclassified.
